

## **Introducing the final model of the Confidence/ Accurate series**

### **The newly released Confidence III F and Accurate III F**

**In celebration of the end of the long running Confidence/Accurate series, the premier high-end car speaker that represents Bewith, we introduce the final models that significantly enhance the sound quality specifications of the original.**

Bewith, Ltd. New Product Announcement January 7, 2020

Bewith, Ltd. (Headquarters: Tosu, Saga Prefecture; President: Toshiharu Nakashima) announces the end of production of the Confidence series—the flagship car speaker that has represented the Bewith brand since its inception in 2002, and has continually been upgraded during its production—as well as the sister model Accurate series, born in 2003. We are proud to announce that in commemoration we will release the special and final Confidence III F, which significantly enhances the sound quality specifications of the previous Confidence III series. Moreover, we have created two series and four models based on the Accurate series, the new Accurate III F, and they will be released at Bewith product dealers nationwide.

#### **■ Confidence III F Series**

**C-50 III F** 5 cm tweeter  
**C-130 III F** 13 cm midwoofer

#### **■ Accurate III F Series**

**A-50 III F** 5 cm tweeter  
**A-130 III F** 13 cm midwoofer

\*The Confidence III F series and the Accurate III F series do not have 2-way system.

### **[Confidence III F] Series, [Accurate III F] Series New Product Overview**

The Confidence III F and Accurate III F series feature enhanced sound quality specifications based on the Confidence III / Accurate III series—the third-generation model of the Confidence / Accurate series introduced in 2015. The main upgrades are an enhanced voice coil shape, improved diaphragm materials, and strengthening of the magnetic circuit, delivering even greater advancements to the well-established sound response and driving power. For this final, perfected member of the constantly evolving Confidence / Accurate series, we aimed to create the ultimate in sound quality.

#### **Confidence III F Series and Accurate III F Series Key Improvements (Compared to "Confidence III" series, "Accurate III" series)**

1. The wire aspect ratio of the flat-square voice coil has been changed to further improve the response of the sound (all models).
2. The composition ratio in the mica polymer diaphragms has been changed to further improve sound response (all models).
3. The magnetic circuit has been strengthened by changes to the magnetization system, further improving the driving force and braking force in the sound (all models).

\*Other product specifications are in accordance with the Confidence III/Accurate III series.
