Source unit package: STATE Package S

Release date: Jan. 24, 2014 Limited edition product

Set model includes BEWITHSTATE BS04 Limited, STATE MM-1D, ML-3.0

STATE Package L and STATE Package S

New Product Description

Our new STATE Package L and STATE Package S limited edition three-piece sets are designed to let you experience the performance of Bewith digital high-end systems at a reasonable price, featuring the BEWITHSTATE BS04 Limited multiprocessing DAC system in a special version produced just for this set, the STATE MM-1D rearview mirror linear PCM player and a dedicated ML cable of 6m length (ML-6.0) in the STATE Package L and 3m length (ML-3.0) in the STATE Package S, all available at a special price. By connecting the BEWITHSTATE BS04 Limited and STATE MM-1D with the dedicated ML cable customers can enjoy the highest grade of uncompressed linear PCM sound with ideal quality, and needless to say you can still send digital and analog audio signals from the STATE MM-1D to external devices as well as display video signals (RCA composite) from the rear camera and other external devices on the STATE MM-1D's display.

BEWITHSTATE BS04 Limited (STATE Package specialized product)

Overview

The BEWITHSTATE BS04 Limited special version for STATE Package L and STATE Package S is a specially tuned model prepared just for these packages, based on the BEWITHSTATE multiprocessing DAC system available since July 2010. It implements fine-tuning of the sound via the inclusion of the super high quality BS04 op amp IC produced exclusively for use in high-end audio equipment through a collaboration between Bewith and New Japan Radio to bring you rich sound detail at an even higher purity. The exterior finish is the same silky black tone finish on high-gloss aluminum alloy used on the current versions of the BEWITHSTATE and R-107S power amplifier shipped since August of 2012.

Note: The BEWITHSTATE BS04 Limited was prepared exclusively for the STATE Package L and STATE Package S sets. We do not sell it as a separate article.
